REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: a search of the prior art fails to teach or render as obvious the claims as a whole, a method for detecting drones within a network, having inbound and outbound intrusion detection system, providing notice to a connected device, having blocking capability, inbound and outbound trace logs, and a determining or correlator means for deducing the source ID of said message. Jin, U.S. Pat. No. 5,623,600 appears to be the closest prior art having an inbound and outbound detection means, blocking and storing data in logs, however, it drops the data rather than deducing the source ID. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Norman M. Wright whose telephone number is (571) 272-3844. The examiner can normally be reached on weekdays, from 8AM to 4 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jacques Louis-Jacques can be reached on (571) 272-6962. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
